

## **GAS Learning Activity 2: Scaling an IFSP Outcome**

### **Step 1:**

Find a small group (2-3). Select one person to record information on the GAS form.

### **Step 2:**

Identify a toddler from the GAS Activity 1 handout (one per group).

### **Step 3:**

Identify one priority outcome per toddler.

### **Step 4:**

Develop the GAS for the priority outcome for toddler.

### **Step 5:**

Discuss practical data collection procedures and potential evidence-based practices. Discuss challenges you experienced in developing the scale.
