Individualized Family Service Plan (IFSP) Individualized Education Program (IEP) – *with Annotations*

In all sections of the IFSP/IEP, use language that is understandable to all team members. Define words that may not be familiar to all team members.

- The IFSP and IEP are plans that identify services and supports so that family members and early education programs are actively engaged in promoting the child's learning and development.
- The IFSP/IEP team determines the skills/abilities and appropriate supports and services either in the natural environment or the least restrictive environment to accomplish the established goals and outcomes.
- These decisions are not made by matching the child's areas of delay with a particular Early Intervention discipline. Rather, supports and strategies are individualized and build on the strengths and skills the child demonstrates in all areas of development.
- The IFSP and IEP are plans that consider: the strengths of the child; concerns of the parent/guardian; most recent evaluation results; academic, developmental and functional needs of the child; communication needs of the child; and will incorporate revisions to the plan to address lack of progress.

The table below is to be used by the team to document important IFSP/IEP meetings that have occurred. Write the actual date of the meeting. Record each date with the purpose of the meeting such as initial IFSP/IEP, Annual Review, Quarterly Update, Six Month Review, or Other Update. Use "Section IX, Revisions to the IFSP/IEP" to document the reasons for revisions and when they occurred.
